Dear David

I was surprised to hear about your decision to retire at the end of this year. I wish you all the very best.

Given that we are in the middle of a two phase consultation, I would welcome some clarification on how your departure might affect the process going forward, particularly the outcome of phase one decisions and the progress of phase two. As you know, I strongly believe that the consultation process is flawed, and am now concerned about the progress that can be made with two key figures in the CCG moving on from their roles.

I would be interested to hear your comments.

Yours

Victoria
