7 February 2017

Dear Victoria

Thank you for your letter dated 13 January. I can assure you that we are working with our neighbouring CCGs that border the north of the County. We are in regular discussions with these CCGs for phase one of the consultation and they will be involved in developing proposals for phase two of the programme. We have also worked with members of the Community Partnership Network which includes members from South Northamptonshire District Council and Stratford District Council.

Households across the border to the north of the County will shortly be receiving information through the post to highlight the consultation and ask for their views. We are holding an event in Brackley later in the month as well as meeting with District Councillors of Stratford upon Avon at the beginning of March.

Yours sincerely

David Smith  
Chief Executive
